AGRICULTUREAL OPTIONAL - TEST SCHEDULE 2025

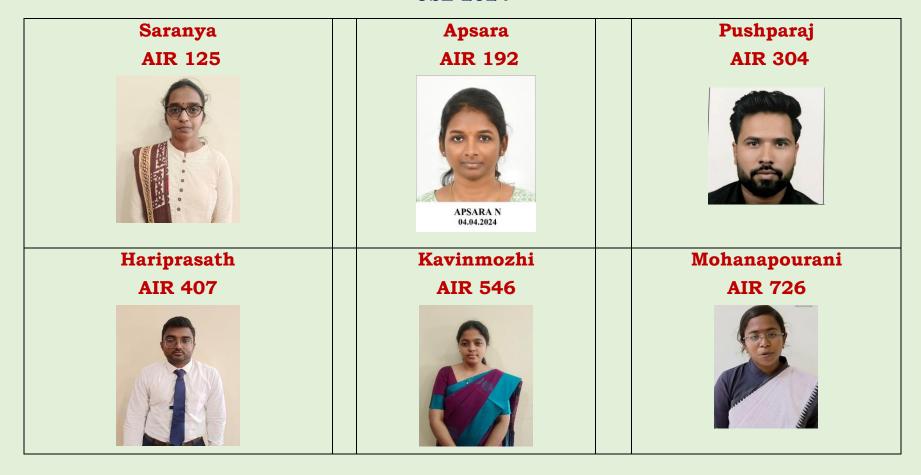

Why Shankar IAS?

- Consistently producing UPSC Toppers with Agriculture Optional for the last 9 years.
- Carefully designed test schedule to achieve 300+ in the Optional paper.
- There will be a total of 12 Tests divided into 8 Sectional test and 4 Full Syllabus Tests.
- More than 75% of the questions reflected in CSE 2024.
- All the test papers are equivalent with the UPSC Mains exam pattern
- Detailed Answers for all questions will be provided
- Toppers' Answer copy will be shared in the test batch telegram channel.
- One-on-one feedback with Faculty
- Answer writing strategy and answers for all tests will be discussed after every test.
- Fee Rs.9,000 for New Students. Rs.7,500 for Old Students.
- Test batch orientation 08.06.2025. Test starts from 13.06.2025

Some of our recent Toppers....

CSE 2024

IFoS 2024

Nila Bharathi
- AIR 24
(Tamil Nadu
Topper)

Sumant AIR 37

Lochan Bopanna AIR 69

Bibisha AIR 88

Vishwas AIR 98

Some of our successful candidates from Agriculture Test Series

Vinay Sunil Patil (CSE 2023)

Shubam Pawar (CSE 2023)

Devi Priya Ajith (CSE 2022)

Ramakrishna Saran (CSE 2022)

Swathi Sree T (CSE 2021)

Rahul Gowda (IFoS 2023)

Sowmya R A (IFoS 2023)

ALE AKSHAY POPAT (IFoS 2023)

Aseem (IFoS 2023)

Kaaviya (IFoS 2021)

Menaga (IFoS 2021)

Valli (IFoS 2021)

AGRICULTURAL TEST SCHEDULE 2025

Test No	Date	Detailed Syllabus	Reference Books
1.	13.06.2025	 Ecology and Environment, Cropping System and Forestry Ecology and its relevance to man, natural resources, their sustainable management and conservation. Physical and social environment as factors of crop distribution and production. Agro ecology; cropping pattern as indicators of environments. Environmental pollution and associated hazards to crops, animals and humans. Climate change—International conventions and global initiatives. Greenhouse effect and global warming. Advance tools for ecosystem analysis—Remote Sensing (RS) and Geographic Information Systems (GIS). Cropping System Cropping patterns in different agro-climatic zones of the country. 	Agriculture Optional Material by R.Kanagaraj Or Ecology and Environment - P.D.Sharma NCERT – 12 th Biology Chapter Ecology

	 Impact of high-yielding and short duration varieties on shifts in cropping patterns. Concepts of various cropping, and farming systems. Organic and Precision farming. Package of practices for production of important cereals, pulses, oil 	 Agritech portal by TNAU Principles of Agronomy – Yellamandha Reddy
	 seeds, fibres, sugar, commercial and fodder crops. Forestry Important features and scope of various types of forestry plantations such as social forestry, agroforestry, and natural forests. Propagation of forest plants. Forest products. Agroforestry and value addition. Conservation of forest flora and fauna. 	
2. 20.06.2025	 Cell Biology, Genetics and Plant Biotechnology Cell structure, function and cell cycle. Synthesis, structure and function of genetic material. Laws of heredity. Chromosome structure, chromosomal aberrations. 	Agriculture Optional Material by R.Kanagaraj Or

		 Linkage and cross-over, and their significance in recombination breeding. Polyploidy, euploids and aneuploids. Mutation and their role in crop improvement. Heritability, sterility and incompatibility, classification and their application in crop improvement. Cytoplasmic inheritance Sex-linked, sex-influenced and sex-limited characters. Role of genetic engineering and biotechnology in crop improvement 	Fundamentals of Genetics – B.D. Singh Plant Breeding Principles and Methods – B.D.Singh
3.	27.06.2025	Weed Science Weeds, their characteristics, dissemination and association with various crops; their multiplications; Cultural, biological, and chemical control of weeds. Irrigation Management Water-use efficiency in relation to crop production, Criteria for scheduling irrigations, Ways and means of reducing run-off losses of irrigation water.	Agriculture Optional Material by R.Kanagaraj Or Agritech portal by TNAU Principles of Agronomy – Yellamandha Reddy

	 Rainwater harvesting. Drip and sprinkler irrigation. Drainage of water-logged soils, Quality of irrigation water, Effect of industrial effluents on soil and water pollution. Irrigation projects in India. 	■ ICAR – E-courses Agriculture website
4. 04.07.2025	 Plant Breeding and Seed Technology History of plant breeding. Modes of reproduction, Selfing and crossing techniques. Origin, evolution and domestication of crop plants, Centre of origin, law of homologous series, Crop genetic resources - conservation and utilization. Application of principles of plant breeding, improvement of crop plants. Molecular markers and their application in plant improvement. Pure-line selection, pedigree, mass and recurrent selections, Combining ability, its significance in plant breeding. Heterosis and its exploitation. 	Agriculture Optional Material by R.Kanagaraj Or Fundamentals of Genetics – B.D. Singh Plant Breeding Principles and Methods – B.D.Singh Seed Technology – R.L.Agarwal

5.	11.07.2025	 Somatic hybridization. Breeding for disease and pest resistance. Role of interspecific and intergeneric hybridization Seed Technology Seed production and processing technologies. Seed certification, Seed testing and storage. DNA finger printing and seed registration. Role of public and private sectors in seed production, and marketing. Intellectual Property Rights (IPR) issues WTO issues and its impact on Agriculture. Soil Science, Nutrient Management, Soil and Water Conservation and Dryland Agriculture 	Agriculture C Material by R.Kanag	Optional (araj
		 Soil—physical, chemical and biological properties. Processes and factors of soil formation. Soils of India. Mineral and organic constituents of soils and their role in maintaining soil productivity 	Or Principles of Agronom Yellamandha Reddy Introductory Soil Scie Dilip Kumar Das	ny –

Nutrient Management

- Essential plant nutrients and other beneficial elements in soils and plants.
- Principles of soil fertility, soil testing and fertiliser recommendations.
- Integrated nutrient management
- Biofertilizers
- Losses of nitrogen in soil, nitrogen-use efficiency in submerged rice soils, nitrogen fixation in soils.
- Efficient phosphoruse and potassium use.
- Problem soils and their reclamation.
- Soil factors affecting green house gas emission.

Soil and Water Conservation and Dryland Agriculture

- Soil conservation, integrated watershed management.
- Soil erosion and its management.
- Dry land agriculture and its problems.
- Technology for stabilising agriculture production in rainfed areas.

6.	18.07.2025	Plant Physiology and Horticulture	Agriculture Optional
		Principles of Plant Physiology with reference to plant nutrition,	Material by R.Kanagaraj
		absorption, translocation and metabolism of nutrients.	Or
		Soil-water-plant relationship.	Fundamentals of Plant
		■ Enzymes and plant pigments;	Physiology – V.K.Jain
		■ Photosynthesis—modern concepts and factors affecting the process,	Hand book of Horticulture -
		Aerobic and anaerobic respiration;	ICAR
		C3, C4 and CAM mechanisms.	
		Carbohydrate, protein and fat metabolism.	
		Growth and development; photoperiodism and vernalization.	
		Plant growth substances and their role in crop production.	
		Physiology of seed development and germination; dormancy.	
		Stress physiology—drought, salt and water stress.	
		Horticulture	
		Major fruits, plantation crops, vegetables, spices and flower crops.	
		Package practices of major horticultural crops.	
		Protected cultivation and high tech horticulture.	
		Post-harvest technology and value addition of fruits and vegetables.	

		Landscaping and commercial floriculture.		
		Medicinal and aromatic plants.		
		Role of fruits and vegetables in human nutrition.		
7.	25.07.2025	Farm Management, Agricultural Economy and Agricultural Extension		Agriculture Optiona
		Farm management, scope, importance and characteristics,		Material by R.Kanagaraj
		Farm planning. Optimum resource use and budgeting.		
		Economics of different types of farming systems.		Or
		Marketing management strategies for development,	•	Economics of Farm
		Market intelligence.		Production and Management
		Price fluctuations and their cost;		– VT Raju
		Role of co-operatives in agricultural economy;		J
		Types and systems of farming and factors affecting them.		
		Agricultural price policy.		
		Crop Insurance.	•	Hand Book of Agricultural
		Agricultural Extension		Extension – ICAR
		Agricultural extension, its importance and role,	•	ICAR – E-courses Agriculture website
		Methods of evaluation of extension programmes,		

	 Socio-economic survey and status of big, small and marginal farmers and landless agricultural labourers; Training programmes for extension workers. Role of Krishi Vigyan Kendra's (KVK) in dissemination of Agricultural technologies. Non-Government Organisation (NGO) and self-help group approach for rural development. 	
8. 01.08.2025	 Entomology, Pathology, Food Production, Food Security and Nutrition Diagnosis of pests and diseases of field crops, vegetables, orchard and plantation crops and their economic importance. Classification of pests and diseases and their management. Integrated pest and diseases management. Storage pests and their management. Biological control of pests and diseases. Epidemiology and forecasting of major crop pests and diseases. Plant quarantine measures. Pesticides, their formulation and modes of action. Food Security Food production and consumption trends in India. Food security and growing population – vision 2020. Reasons for grain surplus. National and 	Agriculture Optional Material by R.Kanagaraj Or Plant Pathology – R.S.Mehrotra Elements of Economic Entomology – Vasantharaj David ICAR – E-courses Agriculture website Agritech Portal by TNAU

		international food policies. Production, procurement, distribution	
		constraints. Availability of food grains, per capita expenditure on food.	
		Trends in poverty, Public Distribution System and Below Poverty Line	
		population, Targeted Public Distribution System (PDS), policy	
		implementation in context to globalization. Processing constraints.	
		Relation of food production to National Dietary Guidelines and food	
		consumption pattern. Food based dietary approaches to eliminate hunger.	
		Nutrient deficiency – Micronutrient deficiency: Protein Energy Malnutrition	
		or Protein Calorie Malnutrition (PEM or PCM), Micro nutrient deficiency	
		and HRD in context of work capacity of women and children. Food grain	
		productivity and food security.	
9.	08.08.2025	Full Mock Test-I	
		Fore Noon - Paper I	
		After Noon – Paper II	
10.	12.08.2025	All India Full Mock Test-II	
		Fore Noon - Paper I	
		After Noon – Paper II
