HOW DOES ESSAY AUGMENTOR PROGRAM WORK ?

In the last couple of years, UPSC has shifted its focus more on abstract/philosophical essays over the usual objective essays. A quick analysis of the toppers' essay copies in the last two years reflects that UPSC essay writing is all about conveying your arguments on the interpretation of the given topic/quote with brevity, clarity and coherence. We can infer that blindly preparing on various themes/ topic areas and accumulating voluminous content, examples , anecdotes, quotes or even statistics does not guarantee that it will help you to score well in essay papers.

“

*An essay is not just about what you write,
it is rather about **how you write what you write***

”

It is to say that the narrative framework adopted by each to convey their arguments on the topic becomes very significant in giving that unique edge to your essay. This is not to diminish the value of content that goes into an essay, but to make sure that you write the apt content in accordance with the demand of the topic in an appropriate manner. A general approach of students is to flood the essay with factual content that has been accumulated while preparing for the general studies papers. But if it was to test the candidates on the fluency of such facts, conceptual points and statistics, then there was no need for a separate essay paper.

The specific requirement of the essay is to see whether you can think both broadly and deeply about the topic, yet not go far away from the very crux of the topic . It is not enough to brainstorm and generate content across various dimensions of multiple subject areas, but they have to make sense with respect to the interpretation of the topic. At the same time each argument ought to be substantiated with relevant examples and assertions while maintaining fluidity between multiple arguments, such that it conveys the logical continuity in candidate's thought process as a part of essay writing.

A DIFFERENT APPROACH TOWARDS ESSAY WRITING GUIDANCE

Considering these particular demands , the course intends to take a different approach towards essay writing programs. After orienting and discussing the basics of what is expected in an ideal essay, for the first 2 tests we would brainstorm and discuss the topic of the tests in class. This would give confidence to the candidates regarding generating content apart from introducing them to multiple approaches that can be taken in writing the same essay. The candidate thus will be in a position to utilize the subsequent 2 essay tests in a more effective way, incorporating the feedback of the previous two exams in the subsequent two.
